

International President Visits St. John's Rotary

July
22nd

As mentioned in yesterday's issue, it will be noted that for the first time since the inception of the St. John's Rotary Club, twenty-nine years ago, St. John's Rotarians are being highly honored by the coming visit of an International President, in the person of Arthur Laguex of Quebec City, recently elected to this high office, and who is expected to deplane here on the evening of August 3rd for a brief visit to local members.

Various committees are now at work finalizing details of the reception program.

President Laguex is beginning a tour of all Rotary clubs, which when completed will include visits to seventy-nine countries, embracing all classes, creeds and colors of peoples, all of them particularly imbued with the fourth principle of Rotary, which is "international understanding, goodwill and peace through a world fellowship of men united in the ideal of service."
