WHAT HAS HAPPENED?

from R. R. Magazine

Since 1940 more than 13 million people have died.
More than 17 million marriages have taken place.
More than 30 million babies have been born.
More than one-third of all present families in the U.S. have been formed.

Out of the 150 million odd people in the U.S. 63 per cent do not remember world war I.

Fifty-two per cent do not remember what conditions were like before World War 2.

Forty-four per cent are consciously experiencing for the first time a free market in which they can buy what they want from normal assortments prior to the present situation, of course.

TWO KINDS OF SUCCESS:

by Theo. Roosevelt

There are two kinds of success. One is the very rare kind that comes to the man who has the power to do what no one else has the power to do. That is genius. Only a very limited amount of success of life comes to persons possessing genius.

The average man who is successful is not a genius. He is a man who has merely the ordinary qualities that he shares with his fellows, but who has developed those ordinary qualities to a more than ordinary degree.

OLDSTERS TAKE NOTICE

from Capital Cogs, Albany

Vanderbilt at 80 added more than a hundred million to his fortune. Wadsworth earned the Laureateship at 73. Thiers at 73 established the French Republic and became the first president. Verdi wrote "Falstaff" at 80. Gladstone became Premier of England for the fourth time at 83. Stradivarius made his first violin after 60. And Sir Walter Scott was \$600,000 in debt at 55, but through his own efforts paid this amount in full, and builded a lasting name for himself.
